5 DIFFICULTY LEVEL

INSTRUCTIONS FOR MAKING

LION KING

WITH POLYMER CLAY

1 Start with a tan color of polymer clay. Roll clay into a cone shape to form the body.

2 Insert a toothpick to secure the head.

3 Roll a second ball of clay into round shape to form the head. Attach head to the body by sitting head on the toothpick and press it down until the head and body are connected.

4 Roll two small cones to form the hind legs. Roll two short ropes of clay to form the front legs.

5 Attach hind legs to the lower part of the body. Attach the front legs to the upper body.

6 Add white feet and use tool to make indents on the feet to form the toes.

7

Roll a ribbon of orange polymer clay into a long rope. Cut into pieces and roll each piece into balls.

Attach orange clay balls to the backside of the head to start the lion's mane. Group the balls tightly into a cluster on the head to form the lion's magnificent mane.

8

9

Add ears and use your sculpting tool to form ear lobes.

Place two flat pieces of white clay onto the face to form the lion's nose.

10

11

Add small black round pieces of clay to form the eyes. Add a triangular shaped black piece to form the point of the nose. Add red or rose color small balls to form the cheeks.

Rolls small thin rope to form the tail. Add an orange cone at the tip of the tail. Connect tail to backside of the lion.
